6	Framing Terms of Reference for Development of a System for Real Time Stream Flow Forecasting and reservoir operation system (RTDAS) for Indira Sagar and Omkareshwar Reservoir in Narmada basin Project, MP.	Central Water & Power Research Station (CWPRS), Pune	NHDC/1/D/170B/18/574 Dt. 21.02.2018 (Award placed by D&E Division)	₹ 11,93,688.00	The work of RTDAS for ISPS & OSPS reservoir is proposed to be executed in three stages: 1. Framing Terms of Reference for Development of RTDAS for ISPS and OSPS Reservoir. 2. Implementation of Development & Implementation of RTDAS System. 3. Capacity Development. Framing terms of reference for the instant R&D project is a crucial activity and shall decide quantum of work and financial implication for actual execution of the work. In case, first stage of the project, i.e. framing terms of reference is executed through open tendering mode, there are chances that lowest bidding party is some private agency, who may also be a bidder in open tendering for main execution of the project, which in principal is undesirable to create a level platform for all bidders. In such a scenario, it is felt appropriate that first stage of the project may be got executed through Government agency, CWPRS, Pune, which is associated with NHDC since long term and is well versed with hydrology of Narmada basin.
